BROUGHT TANK CAR

A verdict of not guilty was returned by the jury in the criminal superior court here on Wednesday afternoon in the case of William H. Buckley of Baltic, who had been before them on trial on the charge of manslaughter because of the death of Charles J. Mc-Kay after he had been struck by the Buckley automobile.

The accident happened in this city on June 2d last, on Burnham square.

When court came in on Wednesday morning witnesses for the defense were called to the stand, the first being Miss May E. Buckley, who is a daughter of the accused and was riding in the automobile which her father was driving

As this concluded the testimony and Attorney John D. Hall began the open-ing a grgument for the state.

He was followed by Charles V. James and Arthur M. Brown, attorneys for Mr. Buckley, and State Attorney Hull closed for the prosecution.

Judge William L. Bennett occupied about 40 minutes in his charge to the fury, and after they had had dinner they took up consideration of the evidence in the case. After about 45 minutes they returned and reported through their foreman, Alfred M. Clarke, of North Stonington, that their verdict was "Not guilty."

As this was to be the last trial of

the accided and was riding in the au-tomobile which her father was driving at the time of the accident. She is a student at the Connecticut Woman's by the court for their services and college.

INTO COAL BARGE Once Queen of the Sound to Find Oth er Employment.

MAKING STEAMER PURITAN

Steamer Puritan made her last trip Wednesday afternoon when at 1.30 o'clock the Scott tug Alera passed a line to the one time Queen of Long Island Sound and pulled her from the mud at the New London line wharf where she has rested for several months and towed her to a row of dolphins previously prepared at the New London Marine Iron Works dolphins previously prepared at the New London Marine Iron Works where the steamer will be dismantled and her hull converted into a barge. It took just a half an hour to get the steamer to its destination. Resting amidships on the outermost of the dolphins the Puritan yielded to the push-

phins the Puritan yielded to the pushing of the Alert and swung to a position at the south side of Iron Works wharf where the wreckers' axes will soon turn the huge side-wheeler into a barge that will be towed about with her hull filled with coal. The wrecking of the Puritan will start immediately. Practically all the interior of the craft has been cleared. interior of the craft has been cleared, all junk values having been sold. The last of the steamer's furniture was put ashore at the wharf Wednesday morning. Every state room has been stripped of its furnishings and berths. As soon as the upper work of the Puritan has been removed the hull will be towed away and the dolphins will be utilized by the steamer Pilgrim, which at present is berthed at Providence

NEW COMMANDER ARRIVES AT FORT WRIGHT

. Willoughby Walke Succeed Major Hero in This District. Col. Willoughby Walke, the new commanding officer of the coast defenses of Long Island sound, has arrived at Fort H. G. Wright, Fishers Island, the district headquarters, Saturday and has been busy since be-coming acquainted with the business

shape, as it has piled up because of the illness and death of the former town clerk. Mr. Home took up his of the district. Colonel Walke succeeds Major Hero in command of this district. Since the departure of Col. John D. Barrette KILLING OF DEER. several months ago Major Hero has been in command as ranking officer of the district, the department making no appointment until a few weeks ago when Colonel Walke was his report at the annual meeting In his report at the annual meeting of the Connecticut Humane society on Wednesday at Hartford President William De Loss Love characterized the deer law passed by the last general assembly, allowing the killing of these animals by owners of land, or their men, as "unjust, inhumane and wastenamed. Thought in command of the district with headquarters at Wright, Major Hero has retained his residence

at Fort Terry, Plum Island, and with the arrival of the new commanding officer resumes his post as command-ing officer of Fort Terry.

The average term of a commanding officer in this district is about three

ADJUST HIGHWAY

ful." He intimated that efforts would be made for the repeal of the law at the next session. He said there was no accurate record of the number of deer killed since Aug. 1, but the number was probably in the thousands. DIFFICULTIES IN GROTON Agreement Made on Width of Fair view Avenue and the Bridges.

The difficulty between the state highway department and railroad companies over the width of Fairview avenue, Groton and the width of bridges over the avenue has been adjusted. Fairview avenue is to be 45 feet wide Instead of forty. The bridge for the Norwich and Worcester company is to be wide enough for two tracks and the bridge for the New Haven road of sufficient width for four tracks. The utilities commission will make an orier accordingly.

to Hartford.

William Hourigan faced the court charged with taking a cut glass dish valued at \$2.75 from his home and selling it in a saloon for a quarter. He claimed he has a job out of town and Judge Barnes put his case over to Feb. 1 in order to give him a chance to go to his job. GIVEN HEARING BEFORE SECRETARY BURNES

George Davison of Stonington on Charge of Reckless Driving-Poul-Tuesday George Davison of Stonington appeared before Secretary of State

Charles D. Burnes at Hartford for a

hearing on the charge of reckless

driving preferred against him. tI is claimed that his automobile killed poultry owned by a resident of North Stonington.

Davison had two previous hearings
Jan. 11 and Jan. 19. His son, Clifford
appeared at Tuesday's hearing and ad-

mitted that he had driven his father's car to his father's mill practically every morning during the period when this poultry was killed. The hearing was continued for a week to allow of securing an affidavit from another son, Harry Davison.

SERV-US MINCE MEAT

Package condensed mince meat is made up today of the best quality of dried fruit and other items which can be found, all of which are found in the United States with the exception of spices and currants. The study of packing condensed mince meat has ex-tended over a period of 100 years and today is as near its perfection as we today is as near its perfection as we can possibly conceive. The sanitation in the factories in which it is packed is beyond reproach as the competition today in these lines necessitates the guarding of the most minute detail of the business. The apples used are of the best grade of New York State, where in our opinion is grown the best flavored apple known. The raisins used are of the best quality seeded variety. No expense is considered in procurring the very highest grade of spices, and sugar, as we all know, is always sugar, the different grades merely representing the different flavors or different granulation required for different purposes. Every quired for different purposes. Every particle of fruit or any other article used in the manufacture of mince meat is thoroughly cleaned and hand-picked used in the manufacture of mince meat is thoroughly cleaned and hand-picked by people trained to know what should and should not be used and in this manner the article comes to the house-wife cleaner by far than she could possibly take the same articles in her own kitchen, regardless of how clean it may be, and make up the filler for her mince pie. The old idea of dirt being prevalent in quantity is today disputed by the greatest authorities on food products. The meat used in mince meat is of the choicest and today the same corn-beef which you and I would use on our table is what is being used in Serv-us Mince Meat. There are very few pies made which can be used as handliy by the housewife as mince meat for all it requires is a little water and being heated for the minutes and it is ready for the crust and then the table and she may without fear of loss carry three or four packages of mince meat in her pantry, having it ready at any time for the chance occurrence of unexpect-ed company and it will be a read-

pantry, having it ready at any time for the chance occurrence of unexpected company and it will be a good dessert free from dirt. It is our thorough belief that a mince meat pie made from condensed mince meat is about as cheap a dessert as can be prepared and yet as good.

For many years mince meat was considered a winter dish. Each year for the last ten our factory has had to increase its capacity during the summer months until today it runs every day of the year with a regular force of helpers. We ship goods to every part of the country the entire year. This of course means a great increase in the use of these goods over when mince meat was eaten only in the winter months which means an increased sale over the former winter consumption.
